My Inspiration Choice

The reason I chose Louis Pasteur is because he had a very interesting life. I wanted him because he helped other people survive from diseases.

Meet the Author

Name: Victoria Williams

Age: 10 Birthday: 2nd

What my readers should know about my life: The thing most people should know about me is

In my free time I enjoy: Every free time I enjoy play, ride

What inspires me: The 3 things that inspire me is play, responsibility, and knowing

My favorite subject: My favorite subject is math.

My favorite book: My favorite book is community

One day I want to: One day I want to go to atlanta.

My Mission

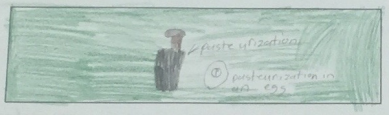
My mission is to make people watch movies on the same day they were made or get free gift card to movie.

My Inventor's Life

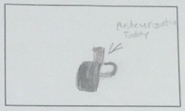
During my invention life he tried to stop diseases except and unfortunately he was not able to because he discovered ability of milk. Louis pasteur was born Dec 27 1822 in Dole, France. He died September 28 1895. He retired around about 1868.

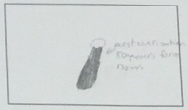
What a World Changer!

Louis Pasteur was a world changer because he helped people with Rabis with out a fight that many people were not Pasteurization kills bacteria in the foods we eat by heat



50 Years From Now...



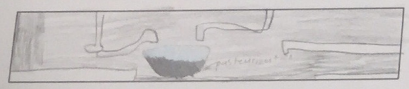


Pasteurization is used to kill bacteria in fat by heat

this pasteurization will be very strong to it kills all the bacteria and others world wide mechanics

My Innovation

My Inventor Noticed a Problem and Persevered



Louis Pasteur noticed a problem that people in the town got very sick. So Louis thought about pasteurization. Louis pasteurization thought people in them nation buthe
