

Invasive Species Research BINGO

Find an invasive species that.....

...is aquatic	...feeds on plankton	...can stick to any surface	...escaped from game ranches
... have invaded several Texas lakes	...have rooting habits that destroy plants	...eat newly hatched chicks	...attack and kill those who cross their nest
...have a dangerous sting	...carry diseases or parasites	...can clog dams	...can reproduce rapidly
...can raise water temperatures	...had a population growth since the ban of fur trade	...can double its population every 2 weeks	...compete with native species for food
