

## Invasive Species UNwanted poster

You make an unwanted poster about one of the invasive species you research.

The following items MUST be included on your poster:

1. Picture of your organism (can be a plant or animal). You may hand draw, use art supplies or use the Google drawings tools. NO clip art.
2. Name of the invasive species
3. Physical description of the species - give us details that will help us spot the organism in the wild
4. Last seen - where is it native to?
5. Suspected hideouts - name the location it is invading
6. Crimes - list exactly what your species does to harm the new environment
7. Reward - NOT money. Name the benefits we would see by eliminating this invasive species (think economically, environmentally, etc)
