

# Invasive Species Poster Project

## YOUR WANTED POSTER MUST CONTAIN:

- **Common & Scientific Names** - List the names from your slip
- **Native to** - Identify where it can be found or where it came from originally
- **Method of Transportation** - How did it get to where it was native to where it is an invasive species today?
- **Crimes Committed** - List specific ways the organism is a threat to the locations where it is found and the damage it causes.
- **Suspected Hideouts** - List the names of countries, states, and/or regions of the world where it can be found along with the types of habitats it would call home.
- **Identification** - Include a written description that includes its size and physical appearance along with a good picture. You may add more images if you have room!

***NOTE: You may change the font, color, size, etc. of the text to customize your poster. You may also add other details depending on the room you have available on the page.***
